

## Getting here

### From Los Angeles:

Assuming that you're driving you'll have been on the I-10 for like 300 miles. Once you're in Phoenix, keep a look-out for the 202 loop and get on it at exit 147A. Next, take Priest Dr and go right, then left onto University Dr and finally take one more left onto Mill Ave.

### From the airport:

Exit aircraft. Claim any baggage you may have checked and head outside. Jump on Sky Harbor Blvd and just keep going until you hit Priest Dr and hang a right and then a left on University Dr and finally turn left on Mill Ave.

### From Tokyo:

Avoiding Godzilla and clown biker punk gangs make your way to the super high-speed rail to the airport. Now, stock up on Airborne and laptop batteries, you're in for one heck of a flight. After landing, disembark and follow the directions listed here:
